COAL IS CONTRABAND.

Russia Has Not Departed From Her Original View.

St. Petersburg, Sept. 23,—According to the present status of the negotiations of the United States and Great Britain with Russia on the matter of contraband of war foodstuffs alone have been formally declared conditional contra-band. Russia has notified Great Britain that she has no intention to depart from her original view that coal is absolute contraband. At the sime time, erstood that Fore Lamsdorff has given Sir Charles Hardinges the British ambassador a verbal assurance of Russia's desire to apply the rule with the greatest leniency. The same assurance applies to all articles of dual use enumerated in article 6 of Russia's declaration on contratand. The report that the commission ap-

pointed to consider the question of contraband held an extraordinary meet-ing and declared cotton, coal and iron to be contraband as announced by a news agency in London, is incorrect. The commission has not held a session since the departure of Professor Martens, its president, for Edinburgh, to attend the meeting of the institute of international law.

The old coffee ails, sluggishness, insomnia, lack of energy, stomach troubles, sallow skin, headaches, and all the others, whatsoever form the nerves decide upon, when they are thrown out of balance by coffee, begin to leave and it's only a question of a short time when Postum will end them all and bring back health.

'I had drank coffee every morning in and out of season until two years ago when all of a sudden my stomach rebelied and shortly thereafter I became a nervous wreck, couldn't eat a bite without intense suffering. I lost most all my flesh and was practically starving because I couldn't get any good out of what little food I did eat.

"One morning when in this wretchedly run-down condition, I read a magazine article about Postum Food Coffee and the case seemed so much like mine I sent out and got a package. At that time almost nothing would stay on my stomach, but the first cup of Postum wife made for me seemed to warm and nourish me clear to my finger tips, and this delightful glow of well fed feeling continued. For the first five or six days the Postum was all I could keep and the case seemed so much like mine days the Postum was all I could keep on my stomach, or even take at all without great suffering, but I got better so fast I added other foods gradually and kept gaining strength and flesh until now I can eat a hearty meal and really enjoy life once more. I know it was Postum that saved me from starving to death when my stomach had been ruined by coffee.

"I know lots of folks don't make Postum right, but it takes only fifteen I know Swan Oleson et al. to Altred Lind-me from green et al., Bingham property ...

Postum right, but it takes only fifteen minutes' boiling to make it perfect according to directions. Then it's better than the best coffee." Name given by against his return for North Postum Co., Battle Creek, Mich.
